Stormwater Volume Reduction Credit Banking Application Form

Stormwater Volume Credit Bank Account Information

CLFLWD SW Volume Account # (if existing):

Project/Bank Name:

Bank Account Owner/Applicant:

County:

Local Governmental Unit (LGU):

Lake Management District (LMD):

Location (Section, Twp, R):

CLFLWD Subwatershed ID:

In order to meet District Stormwater (SW) Volume standards, an applicant for a stormwater management permit must demonstrate to the District that the proposed land altering activity will maintain stormwater flow volume from each point of discharge from the site for a 24-hour precipitation event with a return frequency of 2 years, or 5 years within a landlocked basin or an area that drains to a landlocked basin, at or below the pre-development stormwater flow volume. Excess volume reduction or runoff retention achieved onsite, up to the volume of the five-year, 24-hour event, may be banked (credit) for use on other projects within the District that are unable to fully meet the District stormwater volume reduction standard onsite.

- The District has established and will maintain a list of available banked runoff retention Volume Credits.
- Stormwater management facilities or practices relied upon to create Volume Credits must be included in the recorded maintenance instrument or maintenance plan specified in District Rules.
- Volume Credits may be utilized by permit applicants to meet the requirements only after the applicant has demonstrated to the District that:
 - One-half (1/2) inch of runoff from all new impervious surface on the parcel will be abstracted within parcel boundaries;
 - Soil conditions and/or other site constraints prevent abstraction of additional runoff onsite. Infiltration is considered not feasible where soils do not support infiltration, documented soil contaminants preclude the use of infiltration practices, or there is inadequate separation from the water table.
 - The facility or practice generating the credit is providing the level of volume control for which the applicant seeks credit.
- Permit applicants are responsible for contacting a seller of Volume Credits and arranging the sale on terms established by the interested parties. The District will certify the sale through a form established by the District and completed by the buyer and seller of the Volume Credits.

This Stormwater Volume Reduction Credit Banking Application must be submitted as part of the Project's District permit application.

Stormwater Volume Compliance Requirements and Capacity

Is some part of the capacity to be used for compliance with CLFLWD requirements or those of another regulatory body?

Yes No

If so, identify regulating entity/ies, permit number/s and volume dedicated for compliance:

Table 1. SW Credits To Be Credited

SW Facility	SW Facility Type	SW Credit (ac-ft)	County	LGU	LMD	Sec, Twp, R	Subwatershed	Action
TOTAL								

Facility Type = (infiltration basin, raingarden, etc...)

County = Chisago or Washington

LGU = Chisago City, Chisago Lakes Twp, Forest Lake, Scandia or Wyoming

LMD = Bone, Comfort, Forest, or Little Comfort

Subwatershed can be found in CLFLWD Watershed Management Plan

Required Exhibits

- This stormwater volume reduction credit banking application will require all exhibits shown in section 2.6 of the District's Rules.
- In addition, the applicant will need to submit a statement of area draining to the facility (to determine capacity).

***An as-built survey of volume control measures must be submitted after construction to verify volumes eligible for entry into the District bank.**

Stormwater Volume Credit Bank Applicant Affirmation

By signature below, the Stormwater Volume Credit Bank applicant requests that the credit deposit identified in Table 1 of this form be deposited under the applicant's name in the CLFLWD Stormwater Volume Credit Bank.

Name (Print)

Signature

Date

Do you want CLFLWD to advertise availability of volume credits for sale to the general public? Yes No

If yes, then please provide the contact name and phone number and/or e-mail address that you wish to make available to the general public:

Contact Name _____

Phone _____

e-mail _____

For District office Use Only

The CLFLWD Administrator certifies that the volume credits (verified through CLFLWD certification) have been properly deposited into the CLFLWD Stormwater Volume Credit Bank.
