Notice of Scheduled Site Inspections as part of Comfort Lake – Forest Lake Watershed District (CLFLWD) Permit

As part of receiving a CLFLWD permit, I understand that the District will undertake routine site inspections on a weekly or biweekly schedule to be

The regularly scheduled compliance inspections frequency will be determined and referenced at the time of a site's permit approval and discussed with the applicant at the time the permit is picked up.

If possible, CLFLWD inspection staff will try to coordinate inspections with other inspection entities inspecting the site. Further, whenever, possible, CLFLWD inspection staff will contact the applicant/site manager in advance of regularly scheduled inspection and provide a time window that the inspector expects to be on site.

Aside from the regularly scheduled inspections, inspections may occur:

- During or immediately following installation of BMPs
- Following severe storms/critical events
- Prior to seeding deadlines, particularly in the fall
- Prior to return of escrows
- On report of issue or complaint

I understand the need and process of the CLFLWD site inspections as part of the received District permit and allow the District on site to conduct needed inspections associated to the permit.
