

Create beautiful gardens to keep water clean

Design a Native Garden

Native gardens are beautiful,
save water and your time.

Create a Raingarden

Raingardens filter dirty stormwater
from streets and rooftops before it
enters creeks and rivers.

Stabilize Shorelines

Long roots of native plants anchor
soil, filter out pollutants and
discourage geese from congregating.

Join us for a **free** Planting for Clean Water workshop at **Gander Mountain in Forest Lake (14640 W Freeway Dr)** to learn about beautiful and affordable gardens that help to keep our lakes and streams clean.

Shoreline Planting Workshop: Tue., March 9, 6:30-8pm

Raingarden Workshop: Tue., April 13, 6:30-8pm

Grants are available for people living in high priority areas in and around Forest Lake to install raingardens and shoreline plantings. Free design and installation assistance may also be available.
